PROFILE

Driven, independent Software Developer with a broad skill set.

EXPERIENCE

Senior Developer, Redia A/S 2019-Present
Working on a custom platform with CMS features. Running entirely on the Firebase platform.

Firebase Firestore React TypeScript

Tech Lead, PARKPARK A/S 2017-2019
Pitched and developed our new app on both Android and iOS. Migrated our production environment to Google Cloud and our development to Docker.

Docker GCP Go JavaScript Kubernetes Linux MySQL PHP React React Native

Senior Developer, UVdata A/S (now KMD) 2015-2016
Worked on a green-field project with React and event-sourcing. On our learning-platform I introduced React, did release management and served as a Scrum master.

CSS DevOps HTML JavaScript React

IT Specialist, YouSee A/S 2013-2015
Continued to work on an internal billing and CRM system that powered M1 A/S. Did phone-system integrations to our dashboards, managed Linux servers and handled DevOps.

DevOps JavaScript Linux MySQL PHP

Software Developer, Lyngsø Systems A/S 2013 - 2013

Software Developer, M1 A/S 2012 - 2013

Intern (Developer), Sprettur ehf 2012 - 2012

Been working in IT since 1999. Full list available on LinkedIn.

EDUCATION

BSc, Computer Engineering, Aalborg University 2007-2012

Agile Design & Test Driven Development, Sprettur ehf 2012

Engineering Entrance Course, Aalborg University 2006-2007

ABOUT

I come from Reykjavík, Iceland and am the oldest of 5 brothers. In 2006 I moved to Denmark to study. I now live near Aalborg, Denmark with my girlfriend and son. In my off-time I like to cook, take photos and go for walks.

I've been fascinated by computers since age 8 and spend much of my free time, learning more about them.
